Regional and in collaboration

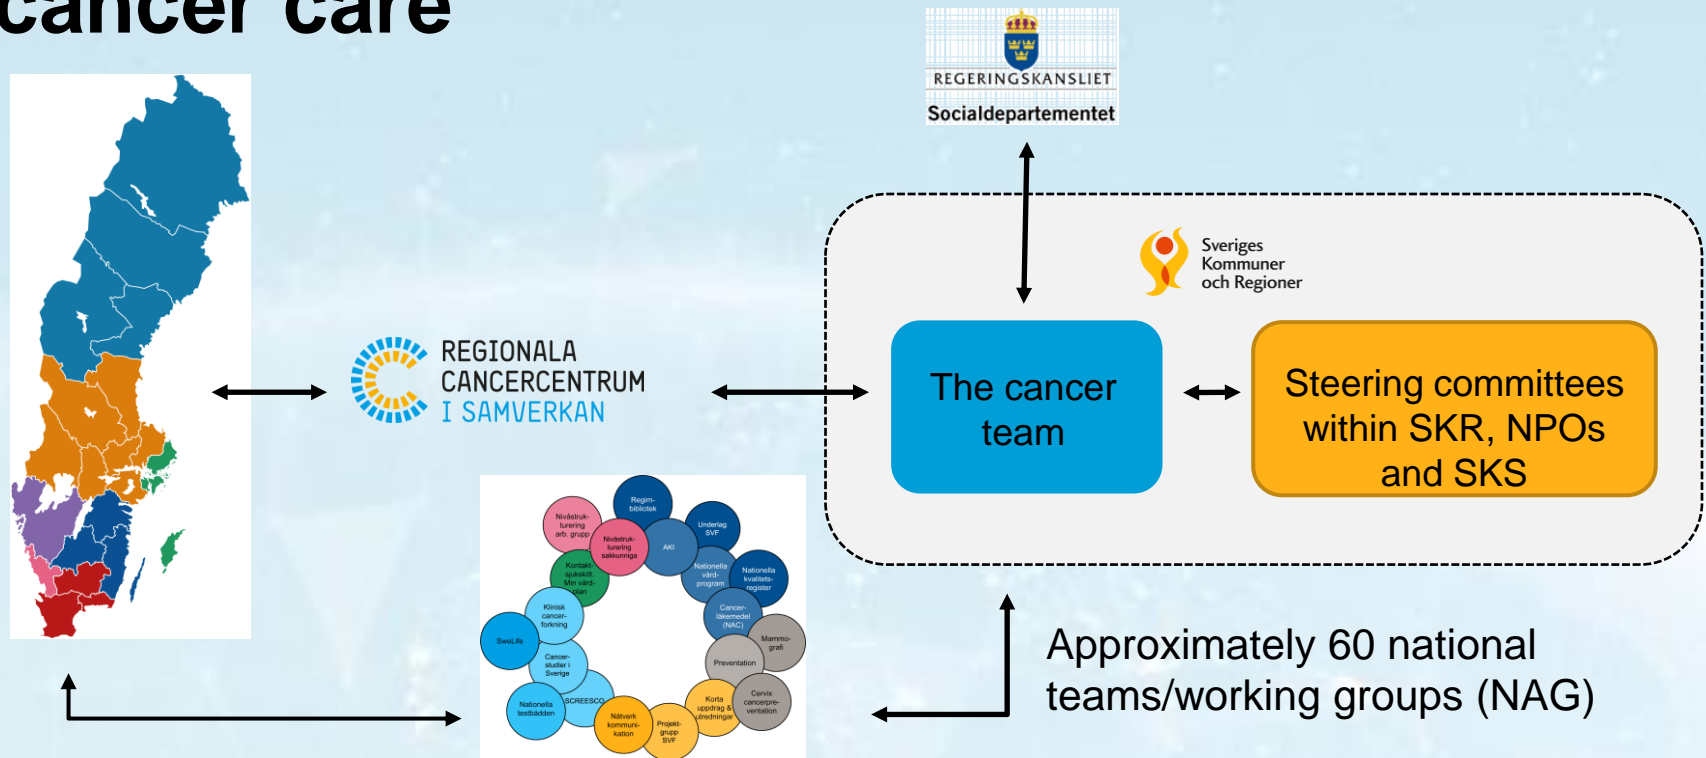

Regional cancer centres collaborate on changes in cancer care to achieve the goals of the national cancer strategy.

Six regional cancer centers

- A** RCC North
- B** RCC Mid Sweden
- C** RCC Stockholm Gotland
- D** RCC West
- E** RCC Southwest
- F** RCC South

RCC organization for the development of cancer care

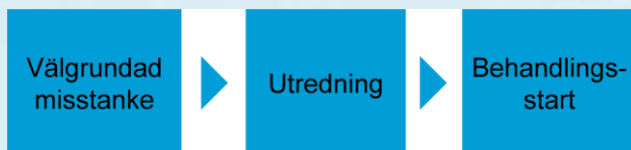

Cornerstones in development

Health care programs

A screenshot of a web application interface for pharmaceutical regimes. It features a table with columns for drug names, dosages, and frequencies. The table is organized into sections like 'A.C' and 'B.C'. The interface has a blue header with navigation tabs.
