

EUREGHA Conference, 2nd December 2014 **“Integrated Care in Practice”**

How do regional and local authorities in Europe implement integrated care, and what are the lessons learnt from the models that are implemented in practice?

EUREGHA (European Regional and Local Health Authorities) would like to invite you to the conference “Integrated Care in Practice”, in Brussels on 2nd December 2014. The conference will highlight how different models of integrated care are being implemented in practice, and the lessons learnt from the implementation of these models.

During the conference, several regional and local integrated care models will be presented and discussed. Representatives from the European Commission, WHO and the International Foundation for Integrated Care will also give their view on the state of the art of integrated care and what the future holds for Europe regarding integrated care.
